

A MEMBER OF **GENESIS** BIOTECHNOLOGY GROUP

FOR IMMEDIATE RELEASE

Medical Diagnostic Laboratories, L.L.C. Selected Distinguished Corporation of the Year.

Hamilton, NJ., May 21, 2012 - Medical Diagnostic Laboratories, L.L.C., (MDL) was the proud recipient of The Mercer Regional Chamber of Commerce 2011 award for Distinguished Corporation of the Year. This award was presented to MDL's Chief Executive Officer (CEO) at the Chamber's 2012 Annual Dinner at the Hyatt Regency Princeton in Princeton, New Jersey on April 18, 2012.

Founded in 1997, MDL, a member of the Genesis Biotechnology Group (GBG), is a CLIA certified reference laboratory which offers highly specialized molecular diagnostic techniques such as Polymerase Chain Reaction (PCR) based testing utilizing specimen collection and transport platforms such as the **OneSwab[®]**, **UroSwab[®]** and **NasoSwab[®]** thus enabling MDL to offer a variety of PCR based tests from a single swab. MDL is able to provide clinicians from many different specialties with valuable information to assist them in the diagnosis, evaluation, and treatment of viral, fungal, and bacterial infections.

MDL is located in Hamilton, New Jersey in "Einstein's Alley," the research and technology corridor that runs from Princeton to Hamilton, New Jersey.

Dr. Eli Mordechai, Chief Executive Officer (CEO) accepted the award on behalf of MDL and stated that "MDL has worked extremely hard to grow and expand our business. I surround myself with dedicated and hardworking individuals." He emphasized that "winning the award was a result of the collaborative effort of many individuals in the organization."
